tructor]

LANGUAGES

English , Hindi

Hobbies:

Playing-Cricket , Love
Fiction Movies:

Node js(Backend-Structure) : Recently I have started working on a new project and the issue that I faced was spending a lot of time building the project structure based on the best practices, especially with javascript that has a lot of approaches and bad parts, I couldn't find any place that wraps the best practices into a single project ,so I decided to make it on my own.

Volunteer

Neo - Campus Ambassador (January 2020 - present): In This mentorship program in Tech students are introduced as an Neo ambassador to the college and Become co-mentorship with these programs. and Currently organising events and give technical built the most passionate students about these thing

Workshop-Instructor :(Code-Chef) : Instructor at workshops conducted by 'CodeChef for Schools' for Competitive Programming. 'CodeChef for Schools' is an initiative by CodeChef which aims to make it easier for students to start coding at a young age by introducing them to Competitive Programming.
